## Town Problems

My town is a great place to live, but there are a few problems here too. And I am going to solve them

Firstly, there is a lot of litter on the streets

Secondly, the air quality in the town isn't great.

Thirdly, there is unemployed citizens.

If I were a mayor, I would reduce the litter on the streets by providing more rubbish bins. To improve air quality I would make dams to get more hydropower, and reduce numbers of heat plants. To reduce unemployment in the town, I would make the market more flexible, to encourage companies to appear and give jobs to the citizens.

In my opinion, this would make a really big difference to the life in my town.
